

Effects of the flood caused by low pressure area Bernd

Dear Ladies and Gentlemen,

We would like to inform you about the current flood situation in NRW and the resulting restrictions. The Rhine River Area, the Märkischer Kreis and the Sauerland are most affected.

Due to the flood situation, traffic is severely restricted and booked containers may be affected.

Our Customer Service teams at the respective terminals are making every effort to keep the impact as low as possible and will be happy to provide you with further information.

As flooding is a case of force majeure, we ask you to bear in mind that we cannot accept any liability for delayed deliveries of containers and the corresponding consequential costs.

Your HGK LOGISTICS AND INTERMODAL Team
