

Weather conditions in Antwerp

Dear partner,

Due to the bad weather conditions (heavy fog), operations have been suspended on Antwerp harbour. Weather forecasts are indicating the same situation for upcoming hours/shifts, which forces us to suspend barge operations furthermore until Saturday 15/01/2022 – 14h00.

In case conditions allow us to resume waterside operations, we will do our utmost to order calls earlier and will communicate again as soon as possible.

Thanks for your understanding.

If you have any questions please do not hesitate to contact your customer service representative.
