

SPECIAL MESSAGE –

**Effects of the onset of winter due to low pressure area
Tristan**

Dear Ladies and Gentlemen.

Because of the onset of winter, traffic in and around the Rhine Ruhr area is restricted. Due to snowfall and stormy winds truck traffic to many places in the Münsterland, East Westphalian and Rhineland regions, is banned or restricted until evening or longer.

In addition railway traffic in the Netherlands and many parts in Germany is severely restricted. Our rail products are also affected.

At the same time we are searching for transport alternatives and we will keep you informed accordingly.
